

Welcome
home

Step into our range

An entry door should be strong and solid, but should also integrate beautifully and seamlessly with the look and feel of your home.

Our range of Platinum entry doors bring together the best in modern and traditional entry designs with the latest trends and technology. The range includes an extensive variety of designs, finishes and complementary fixtures. And thermally-broken options offer improved comfort, warmth, and energy efficiency.

For the latest in contemporary style, our elegant Element door can be personalised with your own distinct panel design, or crafted using a solid painted finish for a pop of colour. The possibilities are almost limitless.

All our doors are constructed of aluminium, designed to be tough and endure the worst that New Zealand's weather can throw at them. They won't split, swell or warp. With the correct maintenance, your door will keep the same beautiful look for years to come.

This brochure takes you through our entry doors and corresponding fixtures. We hope it'll fire up your imagination. If you need more help, just ask us.

We're here to help.

Tongue and Groove door (PTFX) and half door (PTFH) in Matt Iron Sand.

Element door (PTEL) with customised print.

In your *element*

Make a statement with vibrant, bold colours and a premium glass finish.

Element door

Our elegant Element door offers the latest contemporary style and can be painted any colour you wish, or customised with your own graphic, photo or designer print.

Constructed by attaching toughened glass sheets to a rigid aluminium frame, this door really makes an impact. The glass can be back-painted in a vivid colour, or even colour-matched to a tone of your choice. Or you can create your own work of art with a customised print using the latest direct-on-glass digital printing technology. Ink is applied to the back of the glass ensuring a durable, weather proof finish - a perfect match for our high-end, Verta entrance pull handle.

Configuration

Element door

Element door (PTEL) in Lobster.

Tip:

Choose a door that complements the style of your home. A stand-out feature door may be perfect for a modern, architecturally designed home, while a Victorian villa may suit something more traditional.

Did you know?

Your front door is an essential part of your home's thermal envelope. Having a thermal entry door can contribute to improving the energy efficiency of your home.

Our thermal doors include thermal-break technology - an interior layer of polyamide that prevents the outside cold from being transferred inside your home. In summer, it reduces the heat from coming through. Now that's smart.

Tongue and Groove door (PTF) in Brilliant Yellow.

Pure platinum

Our Fairview Platinum collection brings together the best in modern and traditional entry designs with the latest trends and technology.

With a huge range of options to choose from, including a wide selection of energy efficient thermally-broken designs, you'll find the perfect look and feel for your home.

Tongue and groove doors

Add character and charm with one of our modern tongue and groove doors.

Designed to replicate the traditional style of a tongue and groove door, without the associated maintenance of a timber panel. And like all our doors, they are made of aluminium providing an incredibly strong, secure and weather resistant front door.

Configurations

Tongue and groove - frameless

Tongue and groove - framed

*Thermal option available

Panel door (PT4S) in Matt Black.

Panel doors

The classic look of a recessed panel door is timeless, and the restrained, simple designs complement both traditional and modern homes.

To add further character or to brighten your entranceway there are a range of woodgrain finishes and glazing options available.

Configurations

Panel doors - solid

Panel doors - glazed

*Thermal option available

Panel door (PT6ESA) in EUROWOOD Dark Cedar.

Tip:

If security is high on your wish list, ask about multi point locking; a rim-locking system that bolts the door into the frame providing extra security.

Three panel door (PT2HV) in Matt FlaxPod.

Four panel door (PT3HV) in Viper Green.

Flush panel door (PTFLP) in Matt Titania.

Flush panel doors

Versatile flush panel doors offer a more contemporary take on classic panel looks.

With three styles and a range of colours and finishes available, you can truly personalise your entrance way. The door's horizontal grooves can be aligned to your existing horizontal cladding or garage doors, or contrasted with vertical lines for an ultra-modern look.

Glazed door (PTZ3) in Bondi Blue.

Glazed doors

Clean and contemporary, our recessed glazed panel doors are an ideal match for a modern home.

The design creates an inviting, naturally lit entranceway. A wide choice of glass options including clear, obscure and tinted glass mean you can warm your entrance hall while still maintaining privacy.

Flush glazed door (PTFLG) in Matt Black.

Flush glazed door

Stylish and sleek, our flush glazed door will create a stunning entrance way to your home.

With the large glazed panel sitting almost seamlessly within the frame, this style offers a clean, modern look. Double glazing provides you with increased energy efficiency, security and comfort, while tinted glass options give an added sense of privacy.

*Thermal option available

Villa door (PTVIL) in Warm White Pearl.

Villa door

Villa doors are a perfect addition to heritage and traditional homes.

They're ideal for renovations, and add timeless street appeal. A range of hardware and glass options are available to suit this classic style.

Arched doors

Arched doors create old-world charm and grace, and are best suited to a colonial-styled home.

They are especially popular when used as a grand double door entrance. To fully personalise your entrance way, choose your glazing option along with the arch style and colour. *Minimum size restrictions apply.*

Tongue and Groove (PTGVS) in Pearl White.

Half doors and sidelights

Half doors create a wider entrance, while sidelights make a stylish addition to any space.

All our half doors and sidelights are designed to complement our entry doors.

Finishing touches

Colours and finishes

Well-chosen colours can bring life to your home in ways you may not have thought possible.

We have a huge range of standard powder coat colours as well as other special colours and finishes that can accentuate your entrance, or blend in with the rest of your home.

- **Powder coating** is one of the most durable colour-coatings. Our powder coatings are warranted for 15 years for residential applications*, making them the longest warranted powder coatings on the market.
- **Anodising** provides a stylish, matt-metallic finish that's durable and tough wearing.
- **EUROWOOD™** has the warm look and feel of timber, without the associated maintenance. Choose from a range of woodgrain finishes, or select anodised aluminium on one side, with EUROWOOD™ finish on the other.

* Warranties vary depending on finish and there may be a surcharge for a particular choice. Check out our full range of colours and finishes at [fairviewwindows.co.nz](https://www.fairviewwindows.co.nz).

Glass choices

Once you've chosen your door and sidelights, it's time to select the glass. Our glass comes in clear, obscure, tinted and double-glazed options.

- **Obscure glass** has a pattern embedded into its surface that distorts your view when looking through it. While decorative, it can also provide privacy and security. Choose from Cathedral, Stipolite and Etchlite/Opal.
- **Tinted glass** decreases the amount of UV, visible light and heat that passes through your windows, to reduce fading of your precious things.
- **Double-glazing** with clear glass allows just as much sunlight to filter through as a single-glazed window, but the heat will be held in much more effectively, creating a more comfortable environment inside your home.

It's all in the details

Entry handles and locking systems

Choose from a selection of stylish entry handles or go keyless with an advanced digital locking system. With plenty of security features, your home will feel more secure than ever before.

Verta Entrance pull handle

To make a lasting statement, the striking 800mm Verta entrance pull handle will add the ultimate finishing touch. It is crafted from marine grade solid stainless steel ensuring long lasting durability in all climates.

A complete suite is available for interior doors, windows and sliding doors.

For the full range of entry handles available from Fairview, visit your local manufacturer.

Schlage Sense™ Smart Deadbolt

Leading the way in digital locking systems, the Schlage Sense™ Smart Deadbolt is designed to give you total control over access to your home.

The lock is Bluetooth® capable and can be paired with Apple® technologies like iPhone®, iPad®, iPod Touch® and HomeKit®. You can even gain access using Siri® via voice command.

Colour: Satin nickel or black

Schlage S-6000 Digital Touch pad door lock

Your family and precious belongings are in safe hands with Schlage.

Sleek and ultra modern, the S-6000 allows you to quickly open your front door using a PIN, fob or card. It can be unlocked as easily from the inside by rotating the door lever, and you can create temporary access codes for contractors and guests.

Colour: Black only

Tip:

When choosing sizes, consider if it would help if the door was a bit wider than standard, so you can bring in the shopping, the kids, or all your Amazon deliveries with ease.

Sizes

Standard sizes: Panel sizes are up to 2150mm (h) x 810mm x 860mm (w). Outside of these sizes, non-standard surcharges will apply.

Custom built sizes: We can custom manufacture doors to meet your specific needs up to a maximum panel size of 2390mm (h) x 1000m (w). If you're after an Element door, let us know and we'll help you work out the right solution for your home.

For entry doors outside of our standard sizes (heights/widths), please talk to your local Fairview manufacturer.

Caring for your door

All our Platinum aluminium doors are pre-finished with a hard-wearing, electrostatically-applied powder coating, which can be maintained by following the recommended care and maintenance guidelines. Download the full guide at fairviewwindows.co.nz

All standard Platinum doors come with a 5-year workmanship and weather tightness guarantee.

Our door is always open
