

Fairview Classic

With a hardworking, traditional style, the Fairview Classic range of windows and doors will bring a sense of light and space into every room in your home.

Fairview Classic is the perfect introduction to aluminium joinery, designed with practicality in mind, and specifically for New Zealand homes and conditions.

With a classic aesthetic, premium features (like colour-matched hardware) and a price tag that won't blow the budget, it's not surprising that more and more leading architects and group builders use our Classic range to bring out the best in their designs.

Product range consisting of:

- Fixed, awning and casement windows
- Bi-fold windows
- Sliding windows
- Hinged doors
- Bi-fold doors
- Sliding and stacking doors

	Bi-fold panels up to 2400mm (h)
	Hinged panels up to 2400mm (h)
Glazing capacity	Takes up to double glazing (up to 24mm)
WEERS rating	Up to 3 stars

Note: All sizes are typical rather than definitive. Please talk to your local Fairview manufacturer for specific details for your project.

Energy efficiency

Your new Fairview Classic windows and doors can help improve the liveability of your home, and increase your wellbeing. And when you add high performance glass solutions, the benefits are even greater.

Your Fairview manufacturer can show you exactly how energy efficient your windows and doors are using the industry-verified WEERS rating system or whether your windows are ENERGY STAR qualified. Just ask us how.

For ideas, advice and further information about our windows and doors, give us a call.

Your local manufacturer:

Glass choices

Choosing the right glass for your windows and doors is as important as choosing the frames. The right glass can maximise light, reduce heat loss, provide sound protection or minimise fading of your furnishings.

If you're looking for increased energy efficiency and an even more comfortable living environment, adding Low E high performance glass and argon gas to your double-glazed unit provides even better results.

Our friendly Fairview experts can help you decide which glass solutions will work best for your home.

Finishing touches

You can be as creative as your heart desires. Choose from our huge range of standard powder coat colours, plus many additional special colours and finishes.

Our powder coatings are warranted for 15 years for residential applications*; making them the longest warranted powder coatings on the market.

If you are after a real-wood look, you can recreate the beauty of a wood-grain finish with EUROWOOD™.

* Speak to your Fairview manufacturer for more information about colour and film integrity, and our warranties.

Hardware

Whether you're after subtle curves, clean minimalist lines or a strong feature, Fairview has the perfect finishing touch. Our stylish Stella and Alba ranges of contemporary aluminium window and door handles can be powder coated at the same time as your joinery, ensuring a perfect colour match.
